LEAGUE PLAY:

The eight weeks of play will run from June through July and will be a rotation of three formats including best score, alternate shot, and scramble. Golfers have the option of getting their weekly round in at their leisure Monday-Friday starting at 5pm. If you cannot make your weekly round, you are responsible for making up the missed round.

After four weeks, the field will be flighted into two groups and from that point on, you will be competing against your flight.
